Standard colors not shown include: White and Transparent colors. Colors other than our standard colors will require a color match charge of \$30.00 (E) per color. Please specify a color to be matched using a recognized industry color specification system (i.e. Pantone Matching System – PMS). Due to ink formulations, subtle color changes can occur beyond our control. Therefore, perfect color matches cannot be guaranteed.

Ink printed on any background other than white will appear darker than standard color. For contrast, we recommend that fluorescent inks be used against black or one of our dark standard colors. Additionally, fluorescent inks will fade when exposed to sunlight (timeline varies). We recommend fluorescents for indoor or UV protected use only.
